

**Pea Soup's**

# Mini Rocket

12v DC 400 Watt Mobile Smoke Machine

The **Pea Soup Mini Rocket** is a robust and fully portable smoke system, operating from an on-board 12v DC battery to give total portability in producing a non-toxic, persistent water-based artificial smoke.

With a 400 watt power capacity, the Mini Rocket is capable of producing a safe, controllable smoke on demand in areas where no mains power is available and is invaluable for special effects, photographers, film makers, air tracing visualisation, leak detection and for fire safety training in public transport vehicles, boats, RTA sims, etc.

At maximum output, up to 10 minutes of smoke can be produced from the fully charged battery. With the optional external 12v battery connector a 70Ah car battery can provide up to 2 hours of total smoke production!

A high quality 110v/230v charger is included with every unit. Spare battery packs are available if required.

Kit comprises:

- 1 X Pea Soup Mini Rocket smoke machine
- 1 X Battery base assembly (12Ah/20hr)
- 1 X Battery charger (100 – 240v input) and lead
- 1 X 250ml fluid tank and pipe
- 1 X 500ml container of Mini Rocket smoke fluid

Optional Accessories:

Cabled remote control, wireless remote, DMX interface, digital timer controller, connector cable for attachment to external 12v battery, spare batteries, stainless steel version of the machine, 500ml, 2.5 or 5 litre containers of Mini Rocket smoke fluid.

## FEATURES

- Instant, safe smoke, on demand
- No warm up time
- Dense, persistent smoke
- Completely portable
- Simple to operate
- Low rate smoke fluid consumption (10ml/min at full output)
- Can produce smoke for up to 10 min at full output with provided battery
- Optional wireless remote control, analogue cable remote control, DMX interface, digital timer control, external battery connector cable

<b>Power</b>	12v DC / 34 Amps
<b>Heat Exchanger</b>	400 watts
<b>Smoke Output (continuous)</b>	Up to 10 minutes at full output
<b>Fluid Consumption</b>	10ml per minute
<b>Size &amp; Weight (L x W x H)</b>	220 x 105 x 210mm, 5.5kg
<b>Battery Capacity / Charging Time</b>	12v / 12Ah 10-12 hours
<b>Visit our website for more info, videos and pricing.</b>	

Top part of unit is also available separately (ie without battery or charger) for connection to a 12v external (eg car) battery
